SEPTEMBER 24TH, 7PM

THE ARENA THEATER IN POINT ARENA

This powerful documentary honors all survivors of sexual assault. In *Survivors*, Sarah, Peter, Megan and Lisa tell the stories of the incidents that forever changed their lives and the courage and resilience it took to move forward and create lives that are not centered on the assaults that occurred. Presented by Sonoma County's rape crisis, trauma and healing center, Verity, the 30-minute film will be followed by a conversation and Q&A with all four survivors in the film.

Survivors explores how we rise above trauma and reclaim our lives. With each survivor on a different path to healing in the film, a compelling truth emerges: sexual assault can happen to anyone in our community, and when it does, advocates and groups in Sonoma County are dedicated to supporting all of us. We also learn how sharing one's story can help other survivors heal. This will be a night to focus on a widely under-reported topic with an emphasis on healing, empowerment, and solidarity.
